How the wars in Iraq and Afghanistan improved ER care

MultiBriefs

No matter where you stand politically, the reality of death and injury from war is a certainty. During the wars in Iraq and Afghanistan, the United States military used innovative, advanced techniques for medical transportation and wound treatment that ultimately flow into the nation's hospital emergency departments.

Wars are deadly and cost amazing amounts of money and human life. In Iraq and Afghanistan, however, military contributions to civilian medicine — while not worth the lives and injuries — are huge. It is unfortunate that it takes wars to solve these civilian problems.

City of San Francisco Fire Dept/Leader Industries

CNN

Staff Sgt. Edwin Caba served in Afghanistan for nearly three years. Like his fellow soldiers, he longed for a sense of normalcy during his tours. "We'd spend hours not sleeping, and rushing to eat meals, and staying on guard," said Caba. When a litter of puppies was born on the base where Caba served, the animals provided just the relief he needed.

But a few months later, the soldiers' tour was coming to an end. Determined not to leave the dogs behind, they searched for a way to get them to America.

3 motorists protect 6-year-old boy who took toy 4-wheeler onto highway

The Journal News

An autistic 6-year-old boy drove a miniature battery-powered ATV onto the Bronx River Parkway in New York City and was pulled over by good Samaritans, who slowed their vehicles to surround the boy and protect him from other vehicles that might not see him.

J.K. Rowling sends note by Albus Dumbledore to Texas girl from slain family

The Raw Story

British author J. K. Rowling wrote a letter to a teenage girl in Texas in the voice of the wizard Albus Dumbledore after the girl's entire family was murdered by a gunman earlier this summer. The multi-million-selling Harry Potter-series author was moved to contact 15-year-old Cassidy Stay after the girl cited the fictional wizard's words at her family's memorial.
